

Levels of Support for the Tritech Product Range

Sales, Service and Support Levels

Whilst Tritech endeavours to support all our legacy products, due to the age, availability of parts, and service expertise this is not always possible. This document outlines the current sales, service and support levels offered by Tritech for current, recently retired, and legacy products. Although large, this list does not encompass all off the differing Tritech legacy products and if you have a question not covered by this document please contact support@tritech.co.uk with full details of the product for more information.

The support matrix is organised by product type with the different support areas detailed as shown below:

Product	Sales	Eval.	Parts	Repair	Service	Training	Alt.
Sonar 1	✓	✓	✓	✓	✓	✓	✗
Sonar 2	✗	✓	–	✗	✗	–	✓

The different support areas are as below:

Sales	Sales of new units are available from Tritech and our established sales channels.
Eval.	Tritech can undertake inspection and evaluation of the product.
Parts	Spare or replacement parts are available from Tritech and official sales and service representatives.
Repair	Tritech can undertake repairs for the product.
Service	Tritech can offer periodic service to the product.
Training	Technical and operational training may be available for this product. Please contact support@tritech.co.uk with the training requirements.
Alt.	An equivalent system or improved alternative item is available from the current Tritech product line.

The tables are populated with the level of support in each area as below:

✓	Full Service Offered	Full sales, service and technical support is offered for this product. Please contact Tritech via the respective email address for further information.
–	Limited Service Offered	Tritech are only able to offer limited service for this product in the areas identified. Reasons may include a retirement of the product or limited access to service and spare components.
✗	No Service Offered	No service is offered in the areas highlighted. In products where no support is offered across all or most of the specified service areas, only minimal Technical Support can be provided.

For further information regarding product support please contact the relevant Tritech email address with full details of your product and request:

sales@tritech.co.uk	for commercial and new sales related enquiries
service@tritech.co.uk	for service and repair enquiries
support@tritech.co.uk	for technical and application support and assistance
