Product Retirement Announcement**Retirement Time Line:**

The timeline for retirement of the product is detailed below:

Stage	Meaning	Date
Final Time of Sale	After this date, no further new orders for this product will be accepted.	31 December 2025
Final All Parts Availability	Up to this date all parts will continue to be available for internal and external spares, service and repair orders. After this date availability of service and common repair parts cannot be guaranteed.	31 December 2026
Limited Service Parts Availability	After this date any item specific to these part numbers will no longer be manufactured or purchased. Service or repair work will be subject to the availability of parts.	30 June 2027
Final Support	After this date, Tritech will no longer guarantee to offer service or technical support.	31 December 2028

Reason for Retirement:

Following a strategic review of the Micron product lines, Tritech are withdrawing the Micron V3 DST Scanning Sonar and Micron Echosounder products from sale. There are no equivalent products with the same form factor within the current Tritech range. A functional alternative product for the Micron Echosounder is the PA 500 MKII Altimeter. Although no direct functional replacement exists for the Micron Sonar, the MicronGemini 720s sonar is available with the same Micron connector and can operate over a high speed serial link or twisted pair.

Warranty repairs will be addressed on a case-by-case basis for the duration of the existing warranty term in accordance with Tritech standard terms and conditions.

Please contact your normal sales channel for further details and availability of new items service spares or alternative replacement products. If you have any questions regarding this announcement, please do not hesitate to contact Tritech International Ltd. at support@tritech.co.uk or through your normal sales channel.
