Tritech Announces the Product Retirement Plan for the MicronNav 100 USBL System

This announcement is formal notification of Tritech International Ltd's retirement of the MicronNav 100 series of USBL products. The following product numbers are encompassed by this announcement:

Part No.	Description
S07560	MicronNav 100 Hub
S07561	USBL <i>Dunking</i> Transducer (all lengths)
S07619	MicronNav Transponder
S08496	USBL Transducer Pole Assembly
S10371	OEM MicronNav USBL System (all lengths)
MICRON NAV SYSTEM 1 to 4	MicronNav 100 USBL Systems (various lengths)

Reason for Retirement:

The products noted are being withdrawn from sale following the launch of the MicronNav 200 system which supersedes them. The MicronNav 200 system includes additional features, full support within the Tritech Genesis software platform and an updated design to allow future manufacturing and service support. Tritech will no longer maintain a full stock of parts or finished units and as such future service and repair work will be subject to availability and lead time of component parts. The timeline for retirement of the product is detailed below.

Retirement Time Line:

Stage	Meaning	Date
Final Time of Sale	After this date, no further new orders for this product will be accepted.	Immediate
Final All Parts Availability	Up to this date all parts will continue to be available for internal and external spares, service and repair orders. After this date availability of service and common repair parts cannot be guaranteed.	01 December 2021
Limited Service Parts Availability	After this date items specific to these part numbers will no longer be manufactured or purchased. Service work will no longer be supported and any repairs will be subject to the availability of parts.	01 December 2022
Final Support	After this date, Tritech will no longer guarantee to offer technical support.	01 December 2023
