

This announcement relates to the following products:

- **COMV6 PCB**
 - Part Number S10412 02
- **COMV5 MODA PCB**
 - Part Number S04151

Product Information Notice

Tritech announces the release of the COMV6 PCB. This is a direct replacement for the older COMV5 MOD A PCB.

How will this affect my existing SeaKing equipment?

The COMV6 PCB has been designed to be fully compatible with all V3, V5 and V6 SeaKing units. Future sales and service work will be fulfilled utilising the new COMV6 PCB.

What new features does the COMV6 PCB give the SeaKing units?

RS485 will now also be available on all V3, V5 and V6 SeaKing units which are fitted with this COMV6 PCB.

The communication protocol (RS232, RS485, ArcNet) will now be software selectable on V6 SeaKing units fitted with this COMV6 PCB.

- **SeaKing V3: RS485 now available**
- **SeaKing V5: RS485 now available**
- **SeaKing V6: RS485 now available + Comms protocol software selectable**
 - (latest version of Seaneet Pro and firmware update required)
